## INTRODUCTION

As outlined in section 2 (3) of the Health and Safety at Work Act 1974, employers have a duty to prepare a written policy statement with respect to the health and safety at work of employees. Sections 3 and 4 of the Act places additional duties in respect of safeguarding the health and safety of others who may be affected by their undertaking ( e.g. pupils, visitors, contractors).

The policy is in three main parts -

The **statement** which is the commitment of the governors to ensure a safe and healthy place of work, and to employ safe systems of work.

The **organisation** for implementing the policy, including allocation of functions to individuals.

The **arrangements** for carrying out the functions allocated to individuals and monitoring the effectiveness of the policy.

In accordance with the provisions section 2 (3), the school has prepared a policy statement in respect of safeguarding the health and safety of employees and others in the school. **See Policy Statement**

## GENERAL SAFETY POLICY

### 1.0 STATEMENT OF POLICY

This is the health and safety policy of the school, which should be read in conjunction with the health and safety policies of Conwy LEA and Conwy County Borough Council.

The governing body is committed to ensuring a high standard of health, safety and welfare for all staff, pupils, visitors and contractors, by ensuring the following -

- a) A healthy and safe environment throughout the school.
- b) Arrangements to ensure that no person is adversely affected by unsafe working practices, unsafe articles, unsafe substances or unsafe machine used in school.
- c) Provision and dissemination of health and safety information which is received from the LEA and other sources.
- d) The provision of adequate health and safety training to all employees.
- e) Safe means of access and egress.
- f) Adequate welfare facilities for all staff.
- g) Procedures for emergencies such as fire, first aid and other school related incidents.
- h) Monitoring of health and safety standards in the school, together with a review of accident/near miss statistics.
- i) Access to specialist help with references to health and safety matters (LEA).
- j) Encouragement for staff to participate in the promotion of health and safety standards in the school (promotion of joint consultation).
- k) This policy will be reviewed and updated as appropriate.

*The second section of the policy details the Organisation, where areas of responsibilities are clearly set out in an organisational hierarchy, with a précis of the levels of responsibility placed upon the designated persons.*

## 2.0 ORGANISATIONAL STRUCTURE

As previously mentioned, the Health and Safety at Work Act 1974 places duties on employers to safeguard the health and welfare of employees and others, with regard to education. This duty falls onto the County Council as the body corporate, with delegated responsibility to the Education Department - Local Education Authority (LEA), and under Local Management of Schools (LMS), delegated responsibility to the Headteacher and Governing Body.

### 2.1 RESPONSIBILITIES OF SCHOOL GOVERNORS

Governors have duties and responsibilities under the Education Reform Act 1988 with regard to the control and overall effective management of the school. The responsibility for the day to day management of the school is delegated under the Local Management of Schools scheme to Governors, Headteacher and staff, and for areas under their control they should comply with the LEA's policies.

**N.B.** Health and Safety responsibilities will be viewed in the same light and as such liability remains with the LEA, if with respect to this school's health and safety management the governing body as far as is reasonably practicable had complied with such policies. However should the governing body not comply with LEA policy, the LEA could in order to meet its statutory obligation under the Health and Safety at Work Act 1974 intervene in the health and safety management of the school.

Therefore the statutory responsibility for health and safety under LMS in the school is shared between the LEA and the School (Governing Body, Headteacher and staff).

### 2.2 RESPONSIBILITIES - HEADTEACHER - (School Health and Safety Co-ordinator)

**Health and Safety Co-ordinator is xxxxxxxxxxxx.**

(Normally the headteacher adopts the role of the Health and Safety Co-ordinator. In some cases the role of H&S Co-ordinator may be delegated to e.g. Deputy / Senior Teacher to assist the head teacher)

The role of the Headteacher in the school is to comply with LEA policies with respect to his/her delegated responsibilities, and to prepare and implement local health and safety procedure for his/her area of control.

The Headteacher is responsible for the day to day management of the school, including health and safety management aspects such as risk management, which incorporates principles of risk assessment, accident prevention, fire precautions, provision of first aiders, etc.

Duties and responsibilities are defined as follows -

- i) Gathering information and implementing at a local level current health and safety policy/guidelines and procedures produced by the LEA (e.g. the requirement to carryout risk assessments for school activities in accordance with the Management of Health and Safety Regulations 1999).
- ii) Ensuring that staff and others are given appropriate information, instruction and training where necessary in respect of health and safety, and are implementing safe working procedures at a local level.
- iii) Ensuring that adequate resources (money, time) are made available for health and safety issues at a local level (in liaison with the School Governing Body - who have responsibility for delegated budgets for the school)..
- iv) Establish procedures within the school for the reporting of health and safety hazards, clearly detailing course of action to contact the appropriate body (e.g. property section) for remedial works.
- v) To ensure that accident and incidents of violence reporting procedures are adhered to by school staff and that all accidents are recorded and reported whenever necessary in accordance with the LEA procedure, in order to comply with requirements of legislation.
- vi) To ensure adequate provision for first aid; the recommended number of trained first aiders, appointed persons, first aid boxes and supplies, etc. in accordance with LEA guidance, and in order to comply with Health and Safety (First Aid) Regulations 1981.
- vii) Establish emergency evacuation procedures at a local level, ensuring that all concerned (staff, pupils, visitors) are given the appropriate information and instruction. Refer to the LEA school Critical Incident Plan.
- viii) To ensure that all fire fighting equipment is in place and properly inspected and tested and that fire drills are carried out on a regular basis (at least once a term, and a fire log book is used to record data.
- ix) Establish monitoring procedures to ensure compliance at all levels (all school staff, pupils) with LEA policies, procedures and guidance and with local school site health and safety procedures.
- x) To ensure that health and safety issues are discussed at School Governor Meetings, and appropriate action taken in respect of ensuring continuous compliance with LEA policies, procedures and guidance.
- xi) To request health and safety advice from health and safety professionals when there are areas of great concern, where a degree of expertise is required to ensure that staff and others are not put at risk.

- xii) To ensure that all contractors on site liaise with the Headteacher and follow county and LEA guidance on the guidance "Control of Contractors".
- xiii) Responsibility of the school to ensure that the Headteacher participates in health and safety training courses arranged by the LEA.

## **2.3 ADMINISTRATIVE STAFF**

Administrative staff (including staff dealing with dinner monies) are responsible for implementing safe working procedures in respect of their activities at the school, which should comply with the LEA policies, procedures and guidance as appropriate and with the school's health and safety procedures.

## **2.4 CARETAKER**

The caretaker is responsible for ensuring that he/she implements safe working practice in respect of their activities on and around the school and complies with LEA policies, procedures and guidance as appropriate.

**N.B.** In general the caretaker's sphere of activities is quite broad and in some instances failure to implement safe working practices could affect all persons on the school site. Work activities including the changing of light fittings, external and internal maintenance, general labouring, security, movement of furniture, etc. are activities with a degree of risk and appropriate controlled measures should be taken to reduce risk to ensure that staff, pupils and visitors to the school are safe and without risk.

## **2.5 GENERAL**

This policy incorporates the aspects of the LEA health and safety policy that are relevant to the school. However, the requirements of the LEA policy should be regarded as minimum requirements.

After the joint consultative process of the school involving the school governors, the Head, school staff and trade union safety representatives and/or staff representatives, the policy should be ratified by the governing body or a sub-committee of governors.

The policy should address those matters over which the school has control, and cover local issues such as movement of traffic, provision of first aid, and emergency procedures.

### **Arrangements**

This is the largest section of the policy, and details how the commitment given in the policy statement is to be carried out.

The governing body has to plan for the school to be able to implement health and safety policy by setting health and safety objectives and performance standards for their school.

The following is a list of arrangements from the LEA policy, and these can be adopted to suit local needs. This list is not exhaustive, and can be added to if there are issues pertinent to the school. The LEA policy will be reviewed and amended as necessary, and such amendments should then be reflected in the school policy.
